

"Building Guam's Online Future"

GuamWEBZ is a local web design and development company who specializes in website development and website management. We have been in business since 2005, and take pride in working with Guam's public and private sector, having built and supported over 400 websites over the past few years.

Today, GuamWEBZ is concentrating its efforts in raising the web standards, preparing organizations for the future, by making information, services, and products available on line, for the benefit of our island residents.

We love what we do. We do it with care. We are Building Guam's *Online* Future.

CREATIVITY. INNOVATION. KNOWLEDGE.

GuamWEBZ Gives Back:

GuamWEBZ has launched a program called **GuamWEBZ Gives Back**, by which GuamWEBZ builds a website for a qualified non-profit organization for absolutely FREE, every time GuamWEBZ is hired to build a new website for a private business. When we sell a website, we donate a website, at no cost to the receiving non-profit group and no additional cost to the private sector client who hires us. It is a simple concept, but it does wonders for non-profit groups who otherwise cannot gain an online presence. Having the much deserved website allows these non-profit groups to make their cause, good work and need for community support known to masses, over the internet.

“GuamWEBZ provides us with exceptional service and staff who are accessible and responsive to our specific needs. As a nonprofit agency working with a limited budget, GuamWEBZ advised on the best online tools to use to help us maximize our resources.”

- Vanessa

Big Brothers Big Sisters of Guam

“GuamWEBZ has been servicing our unique internet needs in regards to the wholesale of pharmaceutical products locally and throughout Micronesia. We have been a client for the past few years and will continue to rely on GuamWEBZ for any future web applications that may arise.”

Sincerely,

- Patrick Dulay

AGM, MD Wholesale

“My partner and I Ron Lobo all REALTOR'S with Coral Sea Realty in Tamuning Guam.

We decided that having our own web page would be a must for our growing business, we contacted Rhaj with GuamWEBZ about designing and maintaining a web page for us, and he was able to design a state of the art website for us.

Since, Ron or myself are not tech wizards it was very important that we had someone who could do all of the "little things for us" (changes, updates, and graphics).

Our relationship with GuamWEBZ has been on going since October of 2005, we are very satisfied with everything GuamWEBZ has done for us.”

- Susan

Coral Sea Realty

GuamWEBZ,

“Thank you for helping us reach Guam and the world. You've made promoting our program as easy as the click of a button.”

**- Juanita Blaz, Director
Island Girl Power Guam**
